INTERNATIONAL RELATIONS

0. The BASF shall be affiliated to the ASF Australian Section of the International Workers Association (IWA).
1. The BASF will develop friendly relations with other libertarian worker organisations both within BANGLADESH and overseas.
2. The BASF will not enter into relations with organisations deemed by the IWA to be hostile to it.
3. In order to help eliminate the language barriers which divide both our movement and workers everywhere, the BASF encourages the widest possible use of the international language Esperanto.

The Anarcho-Syndicalist Federation is a libertarian workers movement organized according to anarcho-syndicalist principles. We aim to create a society based on liberty, mutual aid, federalism and self-management.

We believe the working class and the employing class have nothing in common. Between these two classes a struggle must go on until the workers of the world organise as a class, take possession of the earth and the machinery of production and abolish the wage system.

In the present we take an active part in the struggle for worker solidarity, shorter hours, immediate wage increases and improved working conditions. And we actively oppose all attacks on workers such as conscription of labour, strike breaking, drives for increased production and longer working hours, wage cuts or unemployment.

We want worker/community self-education for complete self-management of production, distribution, social organisation and preservation of a healthy ecological environment. This will come about by worker/community expropriation of wealth and the creation of alternative economic systems.

We are opposed to all economic and social monopoly. We do not seek the conquest of political power, but rather the total abolition of all state functions in the life of society. Hence we reject all parliamentary activity and other collaboration with legislative bodies. We believe in fighting organisations in the workplace and community, independent of, and opposed to all political parties and Trade Union bureaucracies.

Our means of struggle include education and direct action. To ensure the full participation of all in both current struggle and the future self-management of society, we oppose centralism in our organisations. We organise on the basis of Libertarian Federalism that is from the bottom up without any hierarchy and with full freedom of initiative by both local and regional groups. All co-

ordinating bodies of the Federation consist of recallable delegates with specific tasks determined by local assemblies.

We see the world as our country, humanity as our family. We reject all political and national frontiers and aim to unmask the arbitrary violence of all governments.

We oppose all attitudes and assumptions that are harmful and injurious to working class solidarity. We oppose all ideologies and institutions that stand in the way of equality and the right of people everywhere to control their own lives and their environment.
