- Its complete rejection to the agreements from the G8 meeting, because they will only seek to stress the slaving relations for labour, that nowadays exist in the world.
- Its absolute repudiation of the savage murder of Carlo Giuliani by the Italian police.
- Our solidarity with the comrades gathered in the streets of Genoa, as we see in them the concrete expression of the discontent against the new empire of money.

With comrade Giuliani's death, it begins a new stage in the struggle against Capitalism. The popular movement against the meetings of the bosses has gone a step forward, its growing and massive character is an obligatory subject on the ruler's discussions and it is attacked with all the force of the capitalist army.

We call for the conscious men and women to protest against the current economic order, that sinks us into death and destruction, we also call to demonstrate publicly against the death of comrade Giuliani, who left his life in the struggle for a world just and free, receiving the onslaught of the G8.

In this moment of crisis the slaughters and repressions will grow. We should therefore be prepared for what is about to come. Courage, Solidarity, Unity and Consciousness are the values of resistance; are our weapons to oppose more energetically this world of famine and exploitation.

THE DEATH OF COMRADE GIULIANO WON'T BE IN VAIN; THE BOSSES OF CAPITALISM WILL KNOW ONE DAY HOW TO PAY FOR THIS SHAME ON THE WOMEN AND MEN OF THE WORLD.
