## **The Role of the IRPGF**

The International Revolutionary People's Guerrilla Forces (IRPGF) is a militant armed self-organized and horizontal collective working to defend social revolutions around the world, to directly confront capital and the state, and advance the cause of anarchism. We recognize and affirm that principled action necessitates principled politics. We are not a political party or platform but rather an armed collective comprised of comrades with different anarchist positions. The IRPGF's collective unity manifests itself in the praxis of militant action which we consider a prerequisite for achieving liberation. Our role is twofold; to be an armed force capable of defending liberatory social revolutions around the world while simultaneously being a force capable of insurrection and struggle against all kyriarchal forms of power wherever they exist.

We do not enter conflict zones with intent to command but rather, while retaining our autonomy as a collective, to fight alongside other armed groups in solidarity with those who are oppressed, exploited and facing annihilation. The IRPGF believes collective action, solidarity and unity are necessary for struggle. International solidarity is the most powerful weapon of the oppressed. At the same time we maintain the need for criticism when and where appropriate. (Self)Criticism is not something to be feared. It is to be embraced as the constant source of energy that drives individuals, communities and revolutionary movements towards realizing liberation.

## **The Need for Armed Struggle**

Within movements for liberation an enormous chasm exists between those who deploy peaceful means to confront the enemy and those who defend both their communities and themselves through armed struggle. These dichotomous positions contain within them an intersectional network of social positions and identities that reveal their location, context and content. For the IRPGF, peaceful methods are unable to confront and destroy the state, capitalism and all forms of kyriarchal power. In fact, they do the reverse. They protect, embolden and strengthen the enemy, enhancing the forms of oppression against increasingly isolated individuals and divided societies. We believe that our liberation springs forth from the barrel of a gun.

Armed insurrections and rebellions around the world will be carried out to the end. We fight in defense of life and we struggle for total liberation. The nation-state, authority, capital and social hierarchy are the enemies of a liberated world and therefore enemies of us all. While we struggle through self-criticism and collective criticism of our personal and collective internalizations of these oppressive behaviors, attitudes and practices, the external enemies; the bosses, along with their armies and police, must be confronted with bullets, bombs and dynamite. The fires of justice and freedom are cleansing and all consuming. For us, there is no stepping back and no way to achieve liberation except through struggle. Our communities will only be liberated when we destroy those few whose wealth and power depend on the suffering and exploitation of many.

The master does not give the slave freedom simply out of an ethical act of pity, selflessness and love. The slave must achieve their liberation through insurrection, resistance and revolution, using every tool of the master to destroy both the master and their mechanisms and apparatuses of domination and oppression. The yoke of tyranny and its chains of repression cannot withstand the insurrection of the oppressed. We long for the day when swords will be turned into ploughshares, but until that day arrives, if it ever does, we will hold on to our weapons. The

IRPGF's existence is predicated on the necessity of armed struggle. The moment this is no longer necessary, the IRPGF will cease to exist. Our position is against the notion of "standing armies" or ossified revolutionary groups that become insular states unto themselves.

## **The IRPGF's International Position**

We believe that the third world war has already started and that the conflicts in Syria, Ukraine and in other parts of the world are only the beginning. The capitalist system, nearing its end and having plundered the world and stripped it of its resources, faces its most acute crisis yet. With no surplus labor population to put in its dungeons and assembly lines, the antagonisms and contradictions of the system in crisis are unfolding. With imperialist powers fighting for the last scraps to safeguard their livelihoods and with fascism on the rise, a common struggle is developing against both the domination of capital and the state. The IRPGF will stand with all peoples looking to secure their futures free from ALL forms of oppression, domination and exploitation. We are cognizant and recognize the intersection of unique identities and the particularities that exist within individuals, in communities and between individuals and communities. We support and seek to fully realize the polymorphic nature of human identity and struggle. To this end we join with peoples around the world in their uniqueness, and in ours, to realize our collective liberation.
