Guerrilla gardening as ontological anarchist attack
 against the too fucking late krapitalist death camp
 Preservationist wildlife defence as positivist action
 Revolted by annihilation and bored of cliché negativity
 Rewilding as reweirding
 No one will make it out of this alive, but fuck it — this
 was always absurd!

1

Voidwork

Drifting through bewildernesses

Purposeful aimless wanderings

Treating Thoreau's affirmation of walking as a declaration of rebellion

2

Planting seeds in fertile voids

Seed bombs thrown to destroy mass-extinction culture

Ideas, conversations, pamphlets, art, books and poetry
as planting psychic seeds for the rewilding of
minds

Gardens growing out of wreckage and ruination are
beautiful sights

3

On the side of the pests and desiring weediness

While refusing to accept culls

Metaphysical rebellion as refusing to kill for Cause

As Libertad said – revolt is life!

4

No designs for feralculture gardens

No desire for the totalitarianism of agriculture

Permaculture and horticulture are fine harm reduction

But do not satisfy desires for the liberation of life potential
