# The Angel of Fire Oath

Rifki Syarani Fachry

2019

I want to destroy the sun  
and throws the earth into darkness  
into your mouth, blind well  
holes that collect cliff echoes  
quiet anthology  
I'll throw it  
like my charcoal feeling  
in the abyss of your stomach  
I will darken the earth  
and a small apocalypse grows in your heart  
like rock many times  
become a bud for my pain  
become cold  
who hurt me for years  
eclipse regrets the dark  
gloom loves you
